## SUMMARY

Full Stack Developer with 1+ year of experience building and optimizing web applications using React.js and Node.js. Increased workflow efficiency by **25%** and reduced database latency by **30%** through efficient query design and indexing. Experienced in designing scalable and distributed systems, REST API Development, Authentication and Authorization (JWT, RBAC), caching (Redis), and AWS deployment.

## TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, C++, SQL
- **Frontend:** React.js, Redux, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, Microservices Architecture
- **Databases:** MongoDB, PostgreSQL, MySQL, Query Design, Indexing
- **Tools & Platforms:** Git, GitHub, Docker, AWS (EC2, S3), CI/CD, Postman, Linux, Redis
- **Core Concepts:** Data Structures & Algorithms, OOP, Distributed Systems, SDLC, Agile/Scrum

## PROFESSIONAL EXPERIENCE

### Bharat Electronics Limited (BEL)

Feb 2025 – Present

#### Full Stack Developer

- Engineered a full stack application using **React.js** and **Node.js**, increasing workflow efficiency by **25%**.
- Reduced query latency by **30%** in **PostgreSQL** through indexing and optimized execution plans.
- Designed and delivered **15+ RESTful APIs**, enabling scalable communication across services.
- Implemented secure authentication and authorization using **JWT** and **RBAC**.
- Improved system responsiveness using **Redis caching**, reducing redundant database calls.
- Architected backend components using modular and service-oriented design principles.
- Contributed within an Agile/Scrum environment across the software development lifecycle.

## PROJECTS

### Cognitive and Psychomotor Evaluation System

Qt, C++, Embedded Systems

- Engineered a real-time evaluation platform improving response accuracy by **20%**.
- Designed multithreaded architecture reducing execution time by **25%**.
- Optimized processing pipelines for low-latency operations.

### Automated Audit Logging & Version Control System

React.js, Node.js, PostgreSQL

- Built a full stack system handling **1000+** records with audit tracking and version history.
- Designed rollback and version control mechanisms, improving recovery efficiency by **40%**.
- Ensured data consistency through structured validation and logging strategies.

## KEY ACHIEVEMENTS

- Increased system throughput by **30%** through database tuning and indexing strategies.
- Delivered **15+ production-grade REST APIs** supporting scalable backend services.
- Strengthened application security using **JWT-based authentication** and **RBAC**.

## EDUCATION

### Jawaharlal Nehru Technological University (JNTU), Ananthapuramu

Bachelor of Technology in Computer Science

2019 – 2023 CGPA: 7.9

## CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services
- Google Data Analytics Professional Certificate – Coursera
- Advanced React.js Certification – Bharat Electronics Limited
